MINI ELECTRIC BATTERY CERTIFICATE FOR THE HIGH-VOLTAGE BATTERY TERMS AND CONDITIONS

BMW Concessionaires (HK) Limited ("BMWHK") grants the purchaser of a new MINI electric vehicle the following benefits with respect to the High-Voltage Battery in addition to the warranty rights pursuant to the Terms and Conditions for new MINI electric vehicles:

1. This MINI Electric Battery Certificate ("Certificate") for the High-Voltage Battery of a new MINI electric vehicle applies for the first 100,000 kilometers and ends, regardless of the actual kilometers driven, eight years after the first delivery or the initial registration of the new MINI electric vehicle, whichever is the earliest ("Certificate Period").
2. Within the Certificate Period, the purchaser can claim the repair of a manufacturing defect concerning the High-Voltage Battery and/or excessive capacity loss explicitly stipulated in this Certificate (collectively "Warranty Repair") free of charge, subject to the terms and conditions of this Certificate.
3. Should it become necessary to recover the MINI electric vehicle within the Certificate Period due to a manufacturing defect of the High-Voltage Battery, the necessary costs for towing to the nearest BMW service workshop will be refunded to the purchaser.
4. The capacity of a lithium-ion high voltage battery decreases over the period of use due to inherent technical reasons (natural wear and tear). Should a capacity check at a BMW service workshop show that the net battery capacity has dropped below 70% of its original value at delivery of the new MINI electric vehicle, the portion below 70% is regarded as excessive capacity loss. This excessive capacity loss will be repaired for the purchaser free of charge. This repair can be done by using a new generation high voltage battery. As a result, some technical specifications of the MINI electric vehicle may possibly change without perceptible impact on the driving characteristics of the MINI electric vehicle under usual driving conditions.
5. To be eligible for the rights and benefits outlined in this Certificate, it is mandatory that **(a)** all services, maintenance and inspections with regard to MINI electric vehicle are carried out in the intervals as specified by the manufacturer and checks and rectifications of the High-Voltage Battery are performed where necessary during those inspections; and **(b)** the purchaser shall promptly and timely conduct such services, maintenance and/or repair upon the appearance of any warning light, notification or message with regard to MINI electric vehicle and the High-Voltage Battery on the dashboard system in MINI electric vehicle. Although the purchaser is not required to perform all services, maintenance, inspections and/or repairs with regard to MINI electric vehicle at an authorised BMW Service Centre, this Certificate and its coverage may be voided and excluded due to improper services, maintenance, inspections or repairs. An authorised BMW Service Centre equips with manufacturer trained experts, tools and genuine MINI parts and supplies with respect to MINI electric vehicle.

6. The purchaser shall **not** be entitled to claim the benefits specified in this Certificate if a manufacturing defect or excessive capacity loss was caused by an accident or due to any one of the following reasons:
 - Non-compliance with requirements as stated in paragraph 5 of this Certificate.
 - Service, maintenance and/or repair is performed by an independent third party workshop which results in or leads to a defect.
 - Damaging the High-Voltage Battery or attempting to damage, to extend or to reduce the life of the High-Voltage Battery by physical means, programming or other methods neither approved by nor specified in any manual and documentation provided by the manufacturer.
 - Exposing the High-Voltage Battery to fire.
 - Flooding the High-Voltage Battery.
 - MINI electric vehicle is operated under conditions for which it has not been homologated for (e.g. in a country with different homologation regulations from the one it has been originally delivered).
 - MINI electric vehicle was operated abnormally or overstressed, e.g. at competitive motor sports events, or illegally.
 - Parts have been fitted to MINI electric vehicle which were not approved by the manufacturer OR MINI electric vehicle or parts of it (e.g. software) have been manipulated in a way that was not approved by the manufacturer.
 - Modifications of specifications of MINI electric vehicle without the prior approval of the manufacturer.
 - Any instruction on use, maintenance and care of MINI electric vehicle (especially according to the owner's manual) has not been followed or has been ignored.
 - The High-Voltage Battery has been opened or removed from MINI electric vehicle.

7. This Certificate supplements the Terms and Conditions of New Car Warranty for new MINI electric vehicles. The Terms and Conditions of New Car Warranty for new MINI electric vehicles shall be incorporated in this Certificate by reference, and a copy of which will be downloadable on the website of BMWHK or available upon request made to sales representatives or customer care personnel of BMWHK. It is explicitly stated that benefits and rights pursuant to the Terms and Conditions of New Car Warranty for new MINI Electric vehicles shall remain unaffected by this Certificate.

8. If there is any matter of, relevant, with regard to and derives out of the warranty of the High-Voltage Battery contemplated under and not specifically set out in this Certificate, the appropriate terms and conditions set out in the New Car Warranty for new MINI electric vehicles shall apply mutatis mutandis, i.e. after having made the changes and adjustments which are necessary. If there is any inconsistency or conflict between this Certificate and the New Car Warranty for new MINI electric vehicles, the terms and conditions of this Certificate shall prevail.

9. In case of any ambiguity, confusion, doubt or dispute regarding any issue and matter about or with regard to this Certificate, its scope or contents, the subject warranty it contemplates or the relevant parts be used or be replaced, the interpretation, decision and actions of BMWHK shall be final and binding.

10. BMWHK reserves the right to change, modify, amend, revise and/or update this Certificate at its discretion at time without prior notification
